

**Variation to Definitions within the PVI Collective**

The following is to be included in the above section of Chapter 1 of the PVI Collective.

“Shift” A shift only occurs when there is a rotation of work periods through evening (18:00) or night (midnight) or when a seven day operation is working. Work rostered to cover Saturday mornings, early morning or late starts is not a shift

“Dayshift” Any work period which is completed by 18:00 and when there is a rotation of work periods as above.
