Agreed implementation of Shift Worker Leave for 4 x 10 work pattern employees

Leave is taken as soon as possible after it is earned and applies as follows:

If 4x10 work pattern employee takes shift leave during the season (while premises working 4x10 work pattern) then employee will enter leave as follows:

8 hours shift leave and 2 hours standby offsite (which is to be charged to the operator)

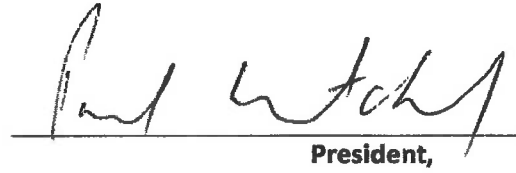

If a 4x10 work pattern employee takes shift leave in the off season it is to be taken as 8 hours of shift leave.

Relievers who have earned shift leave while working a 4x10 work pattern will apply the principles of shift leave as they are when the day is taken e.g. either 5x8 or as above.
